

As one of Europe's leading research universities, Ludwig-Maximilians-Universität (LMU) in Munich is committed to the highest international standards of excellence in research and teaching. Building on its more than 500-year-long tradition, it offers a broad spectrum that covers all areas of knowledge within its 18 Faculties, ranging from the humanities, law, economics and social sciences, to medicine and the natural sciences.

The **Centre for Clinical Veterinary Medicine, Faculty of Veterinary Medicine**, invites applications for a

Full Professorship (W3) of Medicine and Surgery of Birds and Exotic Animals (Chair)

commencing as soon as possible.

The successful applicant will act as the head of the Clinic for Birds, Small Mammals, Reptiles and Ornamental Fish, including all disciplines (surgery, internal medicine, reproduction and other disciplines).

The applicant's activities are expected to extend into teaching, research and administration as well as clinical services. The Clinic for Birds, Small Mammals, Reptiles, and Ornamental Fish at the Oberschleissheim Campus provides excellent conditions for implementing the vision and goals of the future Chair.

Prerequisites for this position are an outstanding personality with excellent leadership skills and longstanding clinical experience in a discipline or subdiscipline of Minor Species' or Poultry medicine, a university degree in veterinary medicine, a doctoral degree or a comparable specific qualification, teaching skills at university level, excellent academic achievements, and a productive and promising research program.

Another prerequisite is at least one of the following international board certifications: Diplomate of the European College of Zoological Medicine (ECZM) or the American College of Exotic Pet Medicine (ACEPM) in at least one of the specialties (Avian Medicine, Herpetological Medicine, Small Mammal Medicine, Wildlife Population Health, or Zoo Health Management). Alternatively, a Diplomate certification from the European College of Poultry Veterinary Science (ECPVS) or the American College of Poultry Veterinarians (ACPV) is accepted. Several years of experience in raising third-party financial resources from national and international funding programs are desirable.

According to national guidelines (TAppV) the successful applicant will be responsible for teaching veterinary students.

As communication with students, staff, industry and stakeholders will require knowledge of spoken and written German, it is pertinent for the successful candidate to demonstrate the sincere willingness to become proficient in German.

LMU Munich makes a point of providing newly appointed professors with various types of support, such as welcoming services and assistance for dual career couples.

LMU Munich is an equal opportunity employer. The University continues to be very successful in increasing the number of female faculty members and strongly encourages applications from female candidates. LMU Munich intends to enhance the diversity of its faculty members. Furthermore, disabled candidates with essentially equal qualifications will be given preference.

Please submit your application in English comprising of a curriculum vitae, documentation of academic degrees and certificates as well as a list of publications, teaching activities, third-party funding and a research concept to the **Dean of the Faculty of Veterinary Medicine, Ludwig-Maximilians-Universität München**, Veterinärstr. 13, 80539 Munich, Germany, via electronic submission (dekanat08@lmu.de, one single pdf file with max. 10 MB) no later than **May 31st, 2026**.
