

The Clinic for Zoo Animals, Exotic Pets and Wildlife
Vetsuisse Faculty, University of Zurich

currently offers a fulltime training position

4-year ACZM Residency Position in

Zoological Companion Animal Medicine (ZCAM) or General Zoo Health (GZH)

Both training programs include veterinary practice in exotic pets and local wildlife admitted to the University Animal Hospital Zurich. While the ZCAM program is solely focused on exotic pet medicine and surgery, the GZH program is also including a large component of zoo animals (at the Zurich Zoo and local wildlife parks). Active participation in research and the clinic's continuing education programme will be requested. Candidates interested to pursue a residency program of the American College of Zoological Medicine (ACZM) are advised to visit the corresponding website (<https://www.aczm.org>), as well as our own residency program description on the webpage (<https://www.zooklinik.uzh.ch/en/teaching-en/Zoological-Residency-Program.html>) and specifically address the motivation and fulfillment of prerequisites for the preferred residency program and the admission to the board exams in their cover letter.

For both positions, a completed veterinary education as well as fluency in spoken German is required. Fluency in English is expected. Applicants must to have completed a 12 month rotating internship or at least 2 years of clinical experience in a larger, multi-discipline veterinary clinic and documented interest and networking in exotic and/or zoo animal medicine are required. Salaries are according to the Guidelines for the Classification of Academic Positions of the University of Zurich. Expected starting date is November 1st 2026.

For questions, please contact Maya Kummrow, maya.kummrow@uzh.ch

Written applications (by regular mail or sent as **a single pdf via email** attachment) including a CV and list of publications/conference contributions (attaching examples is recommended), copies of all relevant diplomas, credentials and certificates, the name and contact details of three references, and a cover letter about motivation and career goals should be sent before **March 31st 2026** to

Christina Meschede
